Words and Voices

The debut album from aesthetic evidence, "words and voices," is celebrated at Casco Bay Books Friday night. The album has 10 "songs" of recited poetry, narrations, conversations and other spoken word snippets. The

music is built around these non-musical verbal texts. You'll get a chance to record your own voice in the Bring Your Own Voice booth for use in future aesthetic evidence releases. To hear audio clips go to entertainment.maintoday.com.
